

**City of De Pere's Ordinance
Requirements for placement/storage
Of your solid waste, green garbage and blue recycling carts**

The City's ordinance requires "that no owner or occupant of any building shall place or store any solid waste or polycarts in front or alongside of any building or on any corner lot along the side of a building facing the abutting street".

The City does not monitor this but will send a property owner a letter regarding this if a complaint is received regarding a specific address that is in violation of this ordinance.
